SOFTWARE ENGINEER | FRONT-END DEVELOPER | FULL STACK ENGINEER

Summary

Result-driven developer with proven success in data anonymization, real time communication, and scalable fintech solutions. Skilled in React, TypeScript, Redux NodeJS RabbitMQ, Python, and Tailwind, consistently delivering 30 to 40% performance enhancement while ensuring compliance with EU data privacy laws.

Work Experience

Web Developer, Fraunhofer IDMT | DA3KMU, GEISST

Sep 2024 – Present

Driving EU-compliant data anonymization, real time communication, and robust multi file analysis with C2PA.

- Led two data centric web projects DA3KMU(data anonymization under EU laws) and C2PA tool for manifest analysis.
- Enhanced user experience by 30%, implement real-time web sockets(JavaScript), and build a React based(TypeScript Redux Tailwind D3.JS) solution from scratch.
- Developed secure pipeline, cut response time by 37% via web workers, and integrated C2PA SDK to display manifest data for video, audio, PDF, other file types.
- Achieved 81% user satisfaction, insured full legal compliance, and delivered a scalable platform supporting 2000 daily files scans with minimal downtime.

Junior Full-Stack Developer, GeekyBugs.inc | JoinSwitch.co

Nov 2022 - Jul 2023

Enhanced fintech solution, boosted conversions, improved performance and enhanced scalability with React, Redux, NodeJS, and RabbitMQ.

- Enhanced JoinSwitch.co Banking application UI/UX, driving a 27% increase in conversion rate.
- Streamline development by 41%, boost backend performance, and simplifying stateful logic in components.
- Implemented React and Redux(component-based), leveraged hooks to cut re-rendering by 32%, and integrated RabbitMQ on Node.js
 for secure, efficient processing.
- Raised API response speed by 29%, improved scalability by 33%, and achieved a 21% higher task completion rate in an agile team.

Internship, National Foods LTD

Aug 2022 - Oct 2022

 $Built\ scalable, high-performance\ UIs\ with\ React,\ Redux\ and\ Tailwind\ for\ high-traffic\ web.$

- Built responsive UIs for high traffic application with React, Redux, Tailwind, focusing on performance.
- Optimized JavaScript, leveraged Reacts virtual DOM, and developed reusable components using best practices.
- Enhanced responsiveness, minimized re-renders, and gained hands on experience in component driven architecture.

Skills

Design Languages HTML5, CSS3, Tailwind CSS

Programming LanguagesJavaScript, TypeScript, C#, Python, BashFrameworksNodeJS, NestJS, jQuery, React, Redux, Asp.Net

Database Management Systems SQL Server, PostgreSQL, MongoDB

ORM (Object-Relational Mapping) Libraries Prisma, TypeORM

Container OrchestrationDockerArchitectural PatternMVC, SPAMessage and QueuingRabbitMQ

Cloud Computing AWS EC2 (Elastic Compute Cloud), Microsoft Azure

Project Management Tools Jira, Redmine

Software Development Methodologies Test-Driven Development, Agile, Scrum

Education

Master of Science in Research in Computer System Engineering

Technical University of Ilmenau, Apr 2023 – Present

Bachelor's in Computer Science

DHA Suffa University, Aug 2018 – Jul 2022
